We have no axe to grind in claiming everything for our hardware. The truth is best at all times, and that's the truth. We carry nothing but first-class hardware and draw the hardware line at Al. If you buy any article second grade, don't let it be hardware. Poor hardware is one of the best things in the world not to have around you. Be generous and let somebody else have all there is of it. That is our policy and we find it pays. It will pay you to adopt our hardware platform. Every article we carry is true and genuine

Notable Catholic Church Conference in

Progress-Order Issued Assigning Gen. Miles to Command of the Army-Gen. Ruger Goes to New York.

Washington, Oct. 2 .- "Nobody knows in Texas I am going to have the hardest fight of my career. Consequently I have been taking good care of myself, despite reports to the contrary, and my condition to-day is such as to justify the confidence reposed in me by my backers. I shall do my utmost to settle the question of supremacy for once and for all."

According to reports sent to the state department from U. S. Consul Bigelow, at Rouen, the world's production of wool has not increased during the past year, but has actually diminished. The figures collected by the permanent custom house commissioners show that, in 1893, the quantity of wool available for commercial was 1012 000 000 kilograms, as price since threshing began. The crop quantity of wool available for commerce was 1,012,000,000 kilograms, as against 1,002,000,000 kilograms in 1894.

In France the product was steadily diminished from 32,151,430 kilograms, in 1840, to 20,275,716, in 1893. The quality of wool does not improve, and, owing to the high price of meats, sheep are being raised for that purpose instead of wool.

Want a Short Campaign. Chicago, Oct. 1 .- The Times-Herald

publishes personal letters from seventy

paign. The same paper says:

"The national committeemen who will soon meet and settle this question need not go astray if they desire to record the wishes of their constituents, the people. If put to a test to-morrow 90 per cent of the voters would declare for a short cambination supporters are sparring for time in order to get their forces here, as at the voters would declare for a short campaign. The only opposition comes from the professional politicians and the professional corruptionists and their hired retainers. There are not wanting signs that the people are thoroughly tired and disgnated with the operations of these conspirators, who wield so potent an infigurace in shaping the polities of the na.

oonsequences."

Of the seventy editors whose opinions are given by the Times-Herald nearly all favor a campaign which shall extend over not more than two months, and while two-thirds of the writers express a pref-erence for September as the time for holding the national conventions of both parties many believe June or July to be the proper months.

Town Building.

It takes live men to make a town. Dead men are only fit to inhabit old cemeteries. If they are really, decidedly dead, all over, they should be tenderly laid away in tembs. If they are dead to enterprise and spirit outside the narrow lines of their one selfish interest and yet persist in walking around, moving their calloused hearts and consciences where business is wanted to push and throb with vigor, they are only like the drone bees-in the way; until they are stung to death and dragged outside the hive of legitimate industry. Twelve really live men are worth more to a [town generally than a round thousand of such useless material that lies around like rubbish in a rushing stream that is aching and foam-
